Understanding Active and Passive Voice

What is Active Voice?

Active voice occurs when the subject of the sentence performs the action expressed by the verb. In this structure, the focus is on the doer of the action, making sentences straightforward and energetic. For example:

- The teacher teaches the students.
- She writes a letter.
- The dog chased the cat.

In each of these sentences, the subject (teacher, she, dog) is actively performing the action.

What is Passive Voice?

Passive voice, on the other hand, occurs when the subject of the sentence is the recipient of the action rather than the performer. The emphasis shifts from the doer to the action itself or the recipient of the action. For example:

- The students are taught by the teacher.
- A letter is written by her.

- The cat was chased by the dog.

Here, the focus is on the action being done to the subject, and the doer may sometimes be omitted if it is unknown or unimportant.

Differences Between Active and Passive Voice

Aspect	Active Voice	Passive Voice
Focus	On the subject performing the action	On the action or the recipient of the action
Structure	Subject + verb + object	Object + form of "to be" + past participle + (by + doer)
